

SAFEGUARDING YOUR BUSINESS TRANSACTIONS

Custom Credit Insurance and Surety Bonds

A System of Safeguards

Every transaction carries the risk of outstanding receivables for you until payment is made in full. A sizeable accumulation of bad debts can jeopardize your business. **Crefo Credit Insurance** provides continuous or one-time protection against financial losses. In the event of non-payment, the insured claim is quickly compensated.

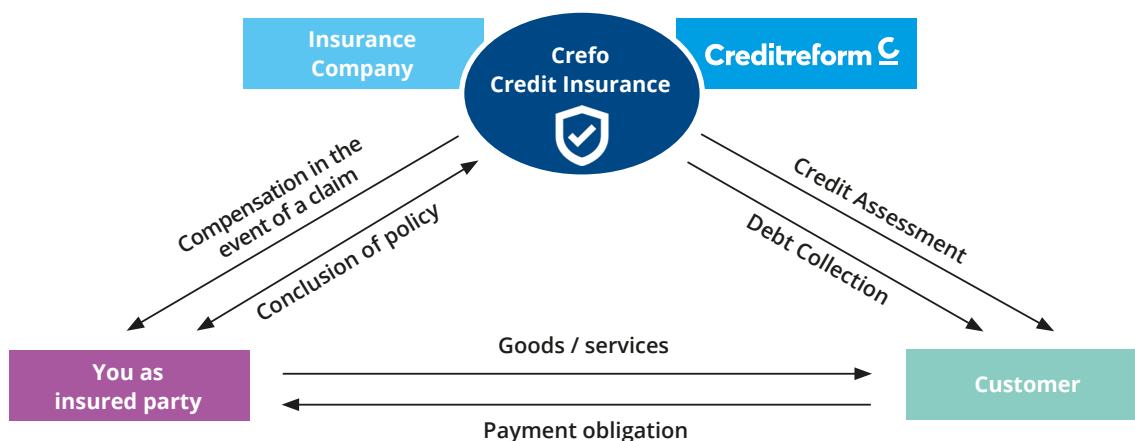

At the same time, your customers are increasingly demanding sureties before they award you a lucrative contract. The **Crefo Surety Bond** is an excellent alternative to a bank guarantee that lets you safeguard orders without burdening your credit line.

Creditreform works closely with leading insurers to offer small and medium-sized enterprises bad-debt protection that is aligned with their needs and covers industry-specific risks as well.

Crefo Credit Insurance

The exclusive combination of Creditreform's credit assessment and debt collection services, and customized bad-debt insurance from leading insurers, offers you simple, straight forward risk protection.

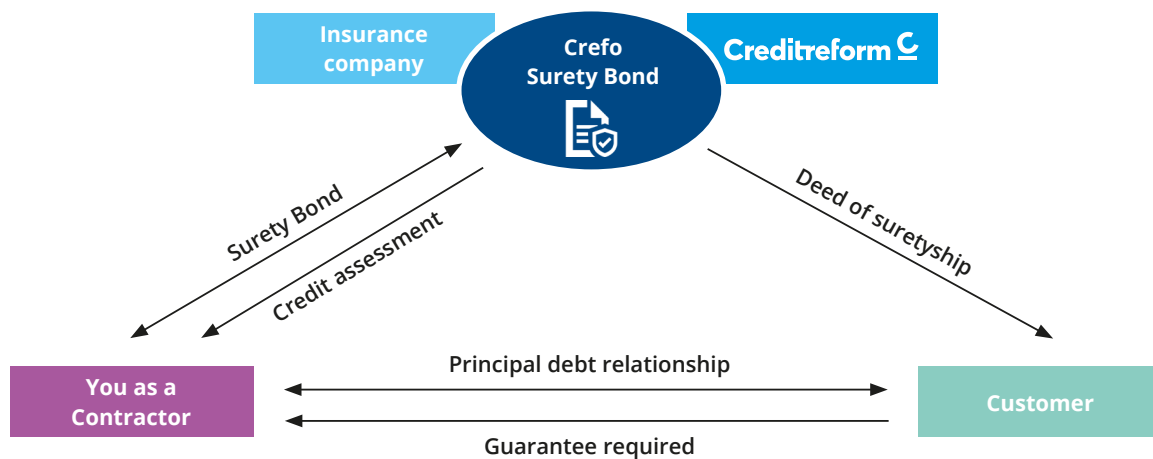

Crefo Credit Insurance – How It Works

Crefo Surety Bond

You can also opt for the Crefo Surety Bond, providing a superior alternative to traditional bank guarantees. The better your company's Creditreform solvency index, the more favourable the terms will be.

Crefo Surety Bond – How it works:

BENEFITS AT A GLANCE

- Minimum administrative overheads
- Simple handling of the contract
- Full cost control
- Creditreform as a competent and experienced partner
- Personal consulting
- Surety concept aligned with your business needs
